Thinking Maps Day One Virtual Training

Thinking Maps Day One training....

gives teachers an understanding of how to visually represent, or “Map,” the critical thinking embedded in the Common Core State Standards. The Maps provide students with both the scaffolds and structures to support a deeper level of understanding.

- Overview of Theory, Research Basis and Common Core Connections
- Introduction to the Defining Characteristics of Thinking Maps
- Learning the Thinking Maps: 8 Visual Patterns for Critical Thinking—Asking Questions
- Strategies for Developing Independent Learners: Teaching the Maps to Students
- Applying Thinking Maps to Unlock Complex Informational Text, Gathering Key Details and Writing from the Text
